## STRONGER SAFER FAMILIES OUTREACH HUBS

The KWY Stronger, Safer Family's Hubs has established close connections to the community and universal services to help identify needs and intervene earlier, not only responding at crisis point after significant damage has been done. People will no longer have to go to multiple places to figure out what support is available and piece together a plan for their safety and well being.

With this in mind KWY has developed a holistic family support program utilizing specialist Women's, children's, and Men workers all working together to break the cycle of Domestic and Family Violence.
